Re: Recommendation for Triad Construction Services

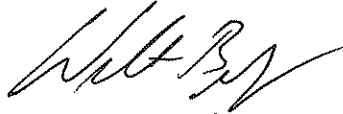

To Whom It May Concern:

Triad Construction Services has served as a General Contractor for Edens & Avant for the last eighteen months. The projects have been well managed and very successful for all parties.

The Triad personnel are very thorough, professional builders with a "can do" attitude. I have been especially pleased with the site supervision provided by Triad Construction Services. Triad also provides a good core from the subcontractor community.

We will continue to do business with Triad Construction services in 2010 and beyond. Please feel free to contact me personally if you so choose.

Cordially,

Walter G. Bagley  
Director of Construction
