Triad Construction Services
Rockville, Maryland

Re: Letter of Recommendation

To Whom It May Concern:

It is with great confidence that I put forward a recommendation of Triad Construction Services. Triad has provided services to our organization for many years on many different projects. They performed pre-construction services on a renovation of a nursing home and renovation of an independent living facility. The accuracy of the information they provided allowed for informed decisions concerning value engineering and price sensitive constructability.

What you can expect from Triad is a streamlined, honest process built upon open communication, and thorough project knowledge that simplifies the construction process. They have proven to be fair in their approach to change orders and bring projects in on schedule and on budget. I have found them to work well on our team and have shown great respect and awareness to difficulties in working in occupied spaces. This is especially challenging in senior care facilities such as ours.

I welcome any specific inquiries to support my recommendation of Triad Construction Services.
